Barcode Scanners

NuScan **4300B**

Bluetooth/2.4GHz 2D Ring Wearable Barcode Scanner

The Adesso Nuscan 4300B is a portable Bluetooth® 2D ring wearable barcode scanner, perfect for use in retail, warehouse, and distribution environments. Its compact ring design allows users to wear the scanner on their fingers, freeing up their hands for other tasks. With a 2D scanning engine, this scanner can quickly and accurately read all types of barcodes, including QR codes and Data Matrix codes. Its superior scanning performance and reliable data collection ensure that no barcode is missed. With drop protection and a long scanning range, this scanner is durable and can capture barcodes from a distance, reducing the need for manual scanning. Whether you need to scan barcodes on products, shelves, or inventory, the Adesso Nuscan 4300B is a versatile and efficient solution.

Barcode Scanners

NuScan 2400U

Waterproof Handheld CCD Barcode Scanner

PERFECT FOR USE IN:

Waterproof
IP67 Rated. Sealed with a silicone plastic material, this scanner is 100% waterproof and can be cleaned with soap and water or other liquids cleaners. Ranked as a IP67 Waterproof Standard, this device can withstand being submerged in water for up to 30 min up to a 3 ft depth.
IP67

Superior Scanning Performance
The CCD sensor can scan the majority of 1D symbologies at a comfortable distance of up to 12" away. The 200 scans per second rate offers fast and accurate scanning results for faster productivity and reliablity.

Drop Protection
With the scanner's durable CCD sensor engine design and its durable silicone plastic material, it makes the Nuscan 2400 less likely to beome damaged due to accidential drops from as high as 20 ft off the ground.

Barcode Scanners

NuScan 2500TU

Spill Resistant Antimicrobial 2D Barcode Scanner

The Adesso NuScan 2500TU is compatible with a wide range of 1D and 2D barcode symbologies. The NuScan 2500TU is completely plug and play, making it extremely reliable. This makes it ideal in many different applications. The scanner is also made with antimicrobial substances which helps keep away germs and viruses. The spillproof feature also ensures that fluids from accidental spills won't stay inside the device. With extra protective design such as the drop protection, the device is less likely to become damaged from accidental drops. Last but not least, compatible with major 2D barcodes(PDF 417, QR Codes, Micro QR Codes, and Data Matrix), and with 1D barcodes like UPC-A, Code 39, Code 128, and more), the NuScan 2500TU is great for your scanning needs.

NuScan 3500TB

2D Bluetooth Antimicrobial Waterproof Barcode Scanner

Big things do come in small packages. Meet the Adesso NuScan 3500TB. This pocket sized barcode scanner weighs at just less than 3 ounces and connects to your mobile iOS/Android devices wirelessly through Bluetooth®. With its 2D sensor, the NuScan 3500TB is capable of decoding the majority of the 1D & 2D barcodes that are used in various industries such as UPCs, EANs, Code 39, Code 128, Codabars, and much more. The antimicrobial substances used to manufacture the scanner help to keep away germs and viruses rated at IP 66, this scanner is also waterproof, oilproof, and dustproof, making it a great scanning choice for industrial environments. Designed with durability in mind, the scanner has a rugged design that can withstand drops up to 10 feet. To increase its longevity, the scanner has a magnetic detachable cable where it snaps onto the scanner with ease to reduce damage to the connector port that is often caused by day-to-day connecting. Last but not least, the scanner is capable of scanning up to 300 scans per second and scanning barcodes up to 20 inches away, offering fast and accurate scanning results.

NuScan 1600U

1D Handheld Barcode Scanner (USB)

The NuScan 1600U is the newest addition to Adesso's hand-held CCD barcode scanner family. Sharing many of its predecessors' superior qualities, Nuscan 1600U is capable of up to 300 scans per second and scanning to built-in inches, thanks to its 32-bit microprocessor. Programming different settings, editing various data, and scanning different 1D barcodes has never been easier with its built in decoder. The drop-protection design prevents damage due to accidental drops of less than 1.5 meters.
